

Welcome to Momoyama Online Program

It has been almost 9 months since people all over the world are forced to give up of traveling freely because of the global pandemic of COVID-19. Who imagined the situation in which we are now at the beginning of the year?

We feel helpless and have no choice but give up our daily life, such as meeting families and friends, traveling abroad and studying on campus. Especially those who plan to come to Momoyama Gakuin University as an exchange student must be feeling disappointed. We also feel the same way.

But we have to do something instead of just looking on the difficulties. Online Buddy Program aims to connect overseas students and Momoyama students online and to promote mutual understanding.

I am very glad to know that 36 overseas students and 59 Momoyama students take part in this Online Buddy program. I do hope you will find unique and creative ways of exchanging culture and languages in the Internet age. And in the near future, we look forward to welcoming you to Momoyama campus in person.
